The MAS (Multiple Amplifier Series) is designed for system integrators. It is designed to house up to five 100 Watt vertical slide-in amplifiers in a 19" rack, using only 7" of vertical rack space. This series accepts any TPL Amplifier from VHF through 960 MHz. Each amplifiers has a circuit beaker/on-off's switch, LED indicators for DC and RF Power, and two cooling fans. Available with D-Sub or Type "N" Connectors.
