## **TPL's MAS-PS**

TPL has a new accessory for their MAS Series slide in power amplifiers. It is a brand new power supply unit that has the ability to house up to five power supply modules in a 5 1/4" high by 19" wide rack mount enclosure. Each power supply module includes a 5 Amp DC auxiliary terminal to power an exciter etc. along with power on and fault indicators. TPL ensures you will have the product that will perform to your expectations in today's crucial times. Visit TPL's web site at [www.tplcom.com](http://www.tplcom.com) and view their other RF Amplifier models that have made TPL the leader in RF Power Amplifiers for over 30 years. Give TPL a call at 1-800-HI POWER.
